tablishing regularity, drying weakening drains, and healing inflammation. "I can cheerfully recommend Doctor Pierce's Favorite Prescription as the best medicine for women," writes Mrs. Mary Murdock, of 220 Taylor St., Topeka, Kansas. I am the mother of ten children and only one living—the tenth one. She is one year old and is as well and hearty as can be. She is a beauty. Of my other babies, some were born at right time, but dead, others were premature births; one lived to be one year old, but she was always feeble. I tried different doctors, but none of them could tell what my trouble was. They said I was well and strong. I was examined by surgeons, but they found nothing wrong, and they were puzzled to know what my trouble was. I did not know what to do, so I thought this last time I would try Dr. Pierce's Favorite Prescription. I took it the entire nine months and now I have a fine baby girl, and I cannot praise your medicine enough for the good it did me."
